Vocational Rehabilitation Report

Terry Smith

- ❖ We are trying to fill vacant counselor positions and hopefully we'll be fully staffed in thirty days.
- ❖ The video phones that were ordered for the VR counselors for the Deaf and Hard of Hearing have been delivered but not set up yet. All counselors also have Blackberries.
- ❖ We now have a letter of understanding with the Knoxville center to do job placement with our VR clients and would like to see other centers involved with the program.
- ❖ The Vocational Rehabilitation Division took no major budget hits this fiscal year. One of our major initiatives is Employment First in which employment is the focus for VR clients from the very start.

Report from Lana Newton

Since I started my job two years ago I had 143 people on the adult deaf-blind register. That number has now grown to over 450 with probably four times that many who have not been identified. I sent out 87 packets for students who are deaf-blind on the children's register right now, and I'm getting referrals almost daily back.
